D2L BRIGHTSPACE

Success Story

Reimagining the learning experience

UMA delights students and faculty by transforming learning management with D2L Brightspace

To enhance the student experience for both its online and blended learning pathways, Ultimate Medical Academy (UMA) realized it needed to replace its legacy learning management system (LMS) with a more modern platform: D2L Brightspace. How could UMA and D2L deliver this large and complex change without disrupting the learning experience for students and faculty?

- Jennifer Birt, Business Analyst, PMO
- Zoaib Mirza, Associate Vice President, Curriculum
- Joseph Gugliuzza, Senior Director, Learner Services
- Richard Estevam, Senior Marketing Manager
- Ann Jackson, Manager Curriculum & Instructional Design

"From a technical perspective, we wanted a more intuitive user interface and a set of tools that would help us manage our processes more efficiently. We also wanted faster access to data and more robust data sets, as well as more standard integrations and less need for customization."

Bill Harlow
Director of Learning and Student Technology
